Refund Policy: Students who suspend or withdraw from the program at any point during the school year will not receive a refund. Students who suspend their studies during the first semester with an official approval by the sister school due to a valid reason (e.g. serious and persistent health problems, disability, bereavement) are able to continue their studies at the start of the second semester of the same school year; academic failure is not considered a valid reason.

If a student withdraws after having paid the next school year's tuition (due on June 5 prior to the start of the new academic year), they will not receive a refund. The only exception will be made for major medical events that prohibit online study; students will be required to provide medical documentation.

Important: The option to defer participation in the summer camp until after the completion of Grade 12 will not be offered. In the absence of extraordinary pandemic-related circumstances, students are required to participate in the summer program in the USA at some point between the completion of Grade 10 and before entering Grade 12.
